Sepsis Accordian Report

Using the Accordian Report

Starting on October 1st 2015, providers are required to perform specific actions and document them when caring for patients who may have SIRS or Septic Shock. To help guide you through the new requirements, the Epic team has created a new Accordion Report. This tip sheet will take you through the new functionality.

• This report contains pertinent information including lab results and patient vitals

凌 Try It Out

1. Select the patient, add the sepsis accordion report from the patient list report search field.
